MADE TO EXPLORE

Made to Explore

ROAM adventure trailers offer a lightweight and hybrid camping experience for all.

With the development of Electric Vehicles and the move to a more sustainable life, we designed a compact and lightweight trailer that is, we believe, the ultimate camping tool. We use lighter and more sustainable materials in our production and when towing it uses less fuel.

ROAM adventure trailers are built by outdoor enthusiasts with years of experience in campervanning and caravanning around

Europe. It solves many frustrations of being confined to a small space. Our unique trailer design brings the outdoors inside for you to enjoy a real camping experience with all your comforts. Our clever design features make your hybrid camping experience more comfortable and functional. You'll have everything you need to set up camp and stay off grid for up to five days.

Our mission is to provide travellers with the ultimate road trip experience. We've created your ideal base camp where you can disconnect the car from your ROAM adventure trailer to enjoy all nature has to offer.

Why ROAM Adventure Trailers?

UNIQUE DESIGN

Gull-wing doors offer instant shelter, fully insulated. Built using sustainable timber and recycled materials.

LIGHTWEIGHT & COMPACT

Easy to tow and store. Sustainable, using less fuel to tow. EV compatible. Weighing only **580 kgs**.

GEAR HAULER

Safely pack and carry all your sports and adventure equipment using the large rear door.

COOK OUTDOORS, IN COMFORT

Slide out kitchen with full size sink, lots of storage.

SLEEP UNDER THE STARS

Sofa quickly converts into a big, comfy double bed.

What's Included?

ALL IN ONE BED & SOFA

Go from a sofa to a full size bed with one swoosh. Supplied with comfortably fire-retardant foam bedding/seating with choice of durable fabric and colours.

INTEGRATED KITCHEN

The 5 foot Slide -out Kitchen comes with a full size Sink with pressurised cold water tap, just easily attach your water containers. It comes with storage for food and equipment while having a food prep area along with a gas stove holder. There's also a 12 v socket for your cooler box/fridge.

FULL SIZE SINK

We found most generic camper vans came with a small sink which wasn't convenient when you were cleaning so we integrated a full size sink that easily slides in when you are finished.

STORAGE

Roam comes with storage for all your bags and equipment with integrated lockers & food storage.

COMFORT

After a long day of adventuring a good night's sleep is needed and with our dense foam cushions and insulated cabin along with bedside reading lights and phone charger, you are guaranteed a great sleep.

ECO-FRIENDLY

Steel-framed for strength and durability, the outer shell is made from a composite of a recycled plastic core, attached to an aluminium skin. 25 mm of high density insulation is fitted everywhere, so your ROAM is cool in summer and warm in winter.

LIGHTWEIGHT

ROAM weighs in at less than 600 kgs when unladen, resulting in industry-leading fuel consumption. Most cars can tow a ROAM and a standard driving licence is all you need.
